

- Admin Dashboard

Total user in the database is 67

Active account -> users that have current subscription plan (plan is monthly) so if the date has expired then its not active

- add expire date to the Users list (if the date is in the past then it has expired, each time they pay the date check for more 30 days

The values are not correct,
Also, show only the one that has views greater than 0.

The watch minutes – is displaying in seconds not minutes please fix.
