

User Dashboard

The values are not correct.

There are no affiliates

User is not a contributor so video has to be 0

User is not a advertiser so it has to be 0

Total Earning (from where)

Where does the role request go?

On the admin side, I do not see where to approve the role

When a request is sent notify admin to approve it by email (info@notisstudios.com)

According to the admin side

This user has a contributor role and is active

The screenshot shows the Admin Dashboard with a sidebar on the left containing menu items: Dashboard, Roles, Permissions, Users, Subscriptions, Media Categories, Contribute Network Manage (highlighted), Contribute Videos, and Genres. The main content area is titled 'All Contribute Videos' and features a search bar, export options, and a table of contributors. The table has columns for ID, Email, Name, Logo, Status, and Actions. Two rows are visible: one for 'Oseirichard' (ID 2, Active) and one for 'admin' (ID 7, Inactive). The 'Oseirichard' row is highlighted with a red rectangle. Pagination shows '1' of 2 records.

ID	Email	Name	Logo	Status	Actions
2	oseirichard1@yahoo.com	Oseirichard		Active	
7	admin@admin.com	admin		Inactive	

But, on the user side, there is nothing related to contributor there

The screenshot shows the User Dashboard. The sidebar on the left has 'Dashboard' and 'Role Request'. The main content area is titled 'Welcome' and displays four statistics: Total Videos (10), Active Ads (10), Total Affiliates (10), and Total Earnings (20). Below this is a 'My Referrals' section with a referral link: <https://notis.afrocinema.org/register?ref=12>. A table below the link is empty, showing 'No data available in table' and 'No records found'.

Please separate the earnings – affiliate earnings and contributor earnings

User can request the withdrawal of each.

Where does the user setup the payment?

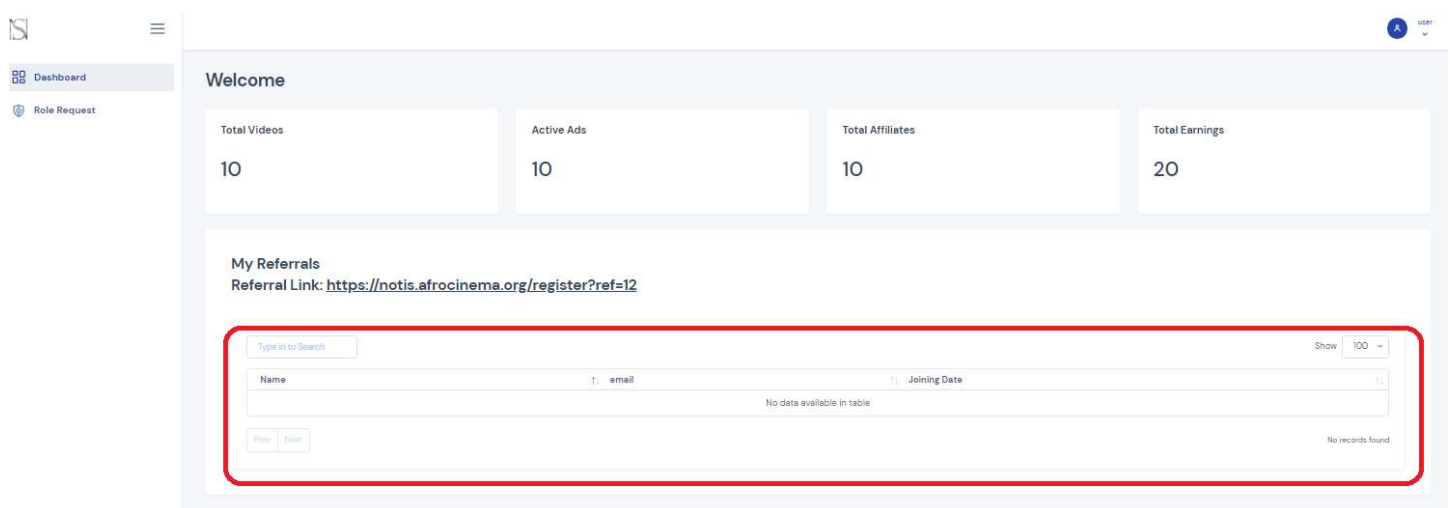

I can't find it anymore. This is important for advertiser to add funds

Affiliate (its missing, please add it back and correct the issue)

I used the referral like to register but user ins not showing

Please remove that, and in the table, show the time.

Contributor Analysis and Filter is not working

The image shows a dashboard interface with a sidebar on the left and a main content area. The sidebar contains a menu with the following items: Dashboard, Role Request, Contributor Earnings, Contribute Network, Contribute Videos, Advertisements, Analytics (highlighted), Advertisement Views, User Analysis, Ad Analysis, Filter Ad Analysis, Contributor Analysis, and Filter Contributor Analysis. The main content area has a 'Welcome' section with four summary cards: Total Videos (0), Active Ads (9), Total Affiliates (0), and Total Earnings (\$10.026). Below this is a 'My Videos' section with a search bar, a table with columns 'Name', 'Views', and 'Ad Views', and a message 'No data available in table'. The table also shows 'No records found' at the bottom right. A red arrow points to the 'Contributor Analysis' link in the sidebar. Another red arrow points to the 'Contributor' role in the top right corner of the dashboard. Below the dashboard screenshot is a browser window showing a 403 error message: '403 | USER DOES NOT HAVE THE RIGHT ROLES.' The browser address bar shows 'notis.afrocinema.org/views/contributors'.

Dashboard Summary:

- Total Videos: 0
- Active Ads: 9
- Total Affiliates: 0
- Total Earnings: \$10.026
