User Dashboard

The values are not correct.

There are no affiliates

User is not a contributor so video has to be 0

User is not a advertiser so it has to be 0

Total Earning (from where)

Where does the role request go?

On the admin side, I do not see where to approve the role

When a request is sent notify admin to approve it by email (info@notisstudios.com)

According to the admin side

This user has a contributor role and is active

But, on the user side, there is nothing related to contributor there

All the analysis for user are not there.

Add these links to Analytics

Movie Analysis (this is the category for movie)

Filter Movie Analysis

TV Show Analysis (this is the category for TV Show)

Filter TV Show Analysis

User Analysis

Ad Analysis

Filter Ad Analysis

The only difference between admin and user is that, admin see all, but user only see info about their own stuff

Contributor should see these analysis

Contributor Earnings (same as affiliate)
- My Earnings
- Withdrawal Request
- New Request

Please separate the earnings – affiliate earnings and contributor earnings

User can request the withdrawal of each.

Affiliate

I used the referral like to register but user ins not showing

Referral Link: https://notis.afrocinema.org/register?ref=12

In the admin section, it did not show the affiliate user under the registered user account

On the affiliate user

Affiliate is not working

User analysis

403 | USER DOES NOT HAVE THE RIGHT ROLES.
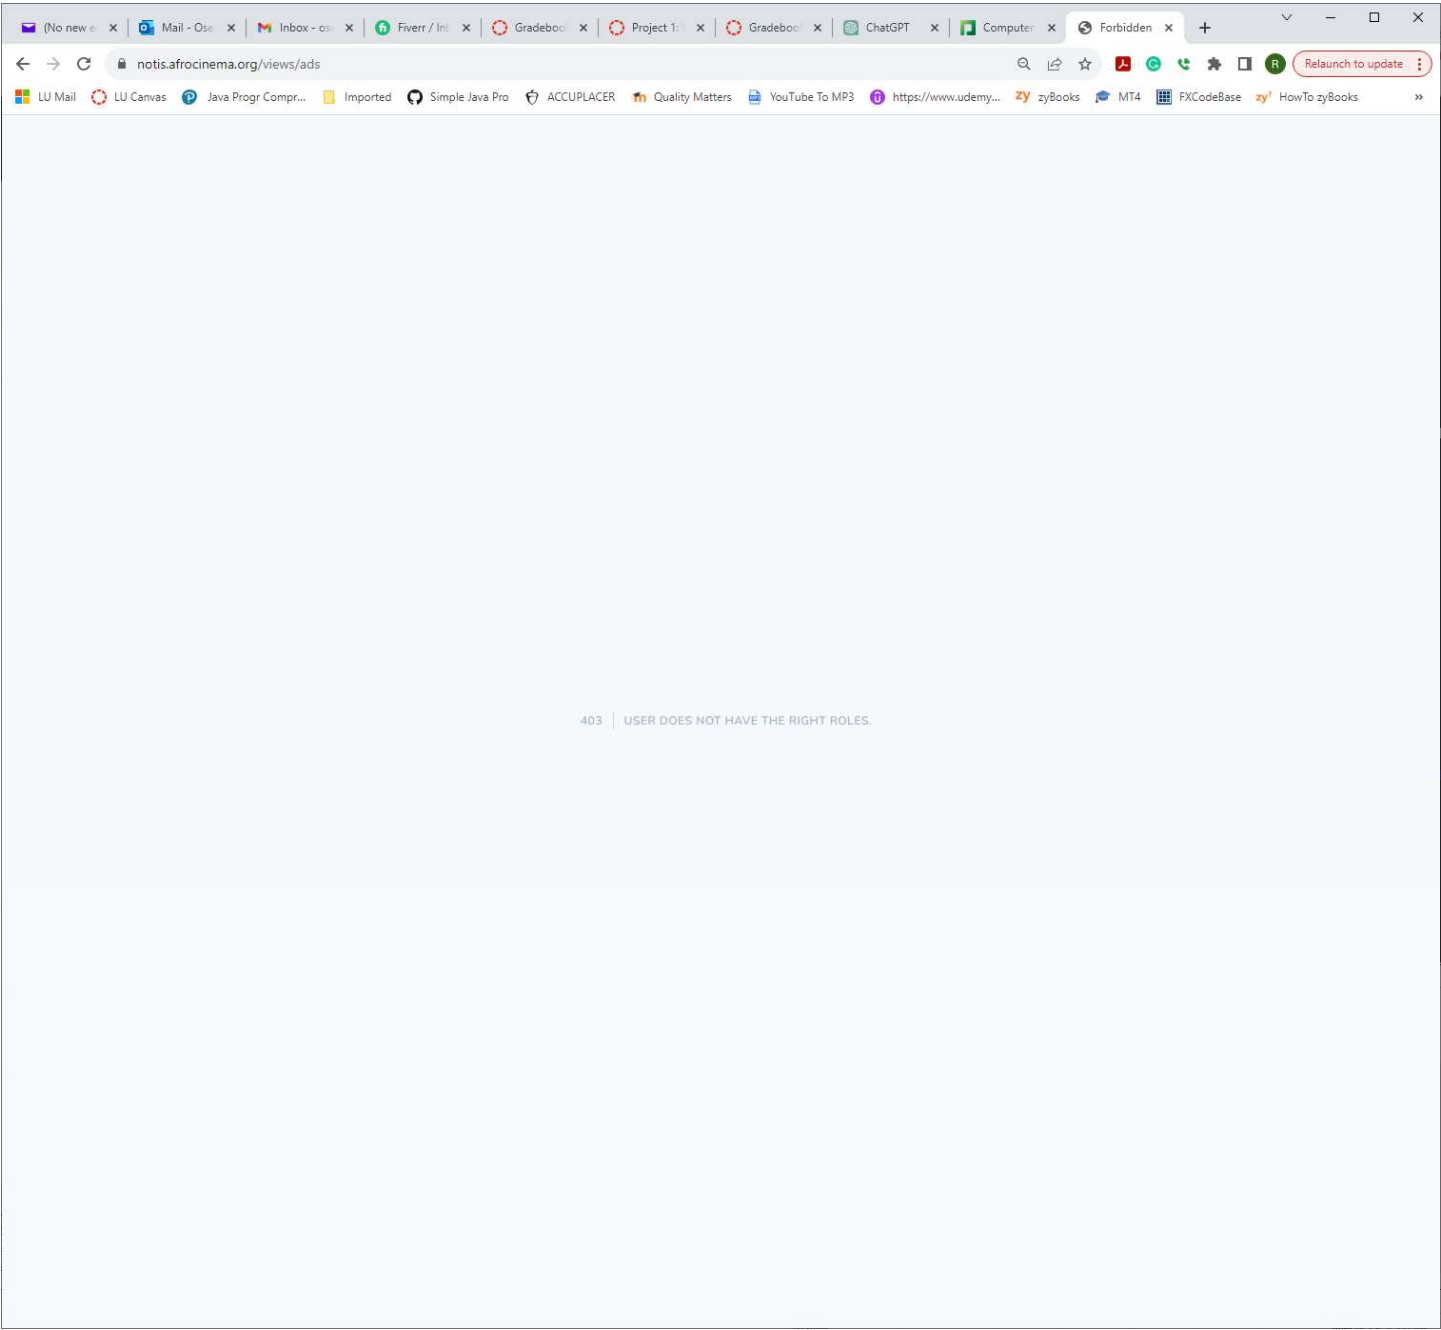

Where does the user setup the payment?
